Projects

GreInvo, *New York, NY*   **January** *2023 – Present*
iOS Developer

- Led end-to-end development and launch of GreInvo, a scalable iOS app, with meticulous design using Figma, XCode, AppStoreConnect, TestFlight to the App Store.
- Developed intuitive interfaces for recycling calculator and invoice management, driving user adoption.

Wok Experience

JPMorgan Chase & Co, *Columbus, OH*   **August 2022 - December 2022**
iOS/Android Developer

- Resolved from 10 to 20 UI/UX and ADA defects in the Chase app, ensuring ADA compliance and enhancing user experience.
- Increased unit test coverage from 60% to 90% using XCTest framework, boosting application stability.
- Participated in daily Scrum meetings utilizing Jira, fostering cross-functional collaboration to deliver updates on new features.

Pantsuit Professionals LLC , *Remote, NY*   **August 2023 - December 2023**
iOS Engineer

- Implemented architectural patterns (MVVM, MVC, MVP) to enhance scalability and testability, while refactoring 80% of the codebase to ensure improved readability, maintainability, and added comprehensive documentation and testing.
- Translated product, UX, and UI requirements into code implementation, ensuring seamless alignment with project objectives using SwiftUI, UIKit
- Implemented AWS Amplify and Cognito to incorporate user authentication and authorization features.

Intel Hiker, *Remote, NY*   **August 2023 - December 2023**
Software Engineer(iOS)

- Improved user engagement and retention rates by implementing captivating animations with SwiftUI.
- Integrated real-time updates using Firebase Realtime Database endpoints, ensuring seamless data synchronization for enhanced user experience.
- Optimized mapping functionality with MapBox, enhancing user interaction and overall app experience.

Education

Hunter College,
New York, NY,   **Jan 202**1
Coursework: Data Structure, Algorithm ,Object-Oriented Programming(OOP) iOS Developing

Certification

CodePath
New York,NY   **Abril 2024**
iOS/Android Developer

Skills

iOS Developing, Swift(Proficient), Fundation, SwiftUI,Combine
 UIKit, Auto Layout, RESTful APIs, CocoaPods, Swift Package Manager, Code Programmatically Photo/Video/ Maps, JSON,XCTest,Objective-C,
